ARE YOU READY FOR THE CANADIAN WINTER?

**SAVE
OVER 50%** *

ON YOUR HEATING COSTS WITH A
MITSUBISHI ELECTRIC HEAT PUMP

Is your home ready for winter? Mitsubishi Electric's heat pumps are a true evolution in year-round comfort. With our patented Hyper-Heat (H2i) flash injection technology, Mitsubishi Electric's heat pumps provide the comfort you need while saving you over 50%* on your heating bills. In fact, Mitsubishi Electric was the 1st to introduce heating and cooling technology made specifically for the Canadian climate, thereby eliminating or reducing the need for supplementary heat such as electric baseboards or fossil fuel.

Visit **MitsubishiHVAC.ca** or contact your participating authorized HVAC dealer for more details.

NHL and the NHL Shield are registered trademarks of the National Hockey League. © NHL 2017. All Rights Reserved.

*Based on a 2014 Study by Natural Resources Canada comparing electric baseboard heating vs. a heat pump. Potential savings may vary depending on type of equipment, personal lifestyle, system settings, equipment maintenance, and installation of equipment.

**Includes a government rebate of up to \$4,000 on qualifying heat pump systems. For more information see <https://saveonenergy.ca/Consumer/Programs/HVAC-Rebates.aspx>. Also includes a manufacturer's instant rebate of up to \$1,000 which is valid only for Ontario residential customers who purchase one of the qualifying products for their homes on or before Dec 31, 2017. The qualifying product must be purchased in new condition from a participating Authorized Mitsubishi Electric HVAC Dealer, and installed in a residential application. Products purchased through unauthorized channels; imported or grey market products; used, refurbished, demonstration, or warranty replacement units are not eligible. The applicable instant rebate amount will be reflected in the final purchase price. Not responsible for printing or typographical errors. Void where prohibited or restricted by law. See a participating Authorized Mitsubishi Electric HVAC Dealer for complete program eligibility, dates, details and restrictions. The rebate is applicable to system purchases, there may be instances where more than one system is purchased per household.
